

YOU MAY NOT KNOW WHERE YOUR VASCULAR PROBLEM BEGAN.

Vascular problems
can include life

threatening
abdominal

aneurysms, leg pain, circulatory problems and blood
vessel blockages. If you're suffering from a vascular
problem, you need the Cardiac and Endovascular

Center at Hallmark Health. Our extensive
expertise in vascular conditions is leading edge,
and for many of our patients, life-saving. Our expertise
begins with an elite team of physicians using advanced
treatments previously performed only in academic
medical centers.

*Vascular surgeons and interventional radiologists
help get you back on your feet.*

BUT HERE'S WHERE IT SHOULD LEAD YOU.

Their approaches
in treating vascular
problems are well
known. We've made

advances using procedures that are less invasive than ever before,
often requiring only tiny incisions to strengthen blood vessels and
increase blood flow.

With all these advancements, it's clear. No matter what
vascular problem you have, our expertise should lead you to
Hallmark Health. For more information call (781) 979-3999
or visit hallmarkhealth.org.
