# WHAT'S BLACK AND WHITE AND READ ALL OVER?

---

The news is out on diagnostic imaging at Hallmark Health. The expertise of our highly trained, board certified radiologists and advanced imaging technologies rival those found at leading hospitals throughout the country. These technologies produce images that help your doctor see you like never before.

The new tools in their hands? Advanced 64-slice CT and the latest in high field MRI technology including Breast MRI and specialized orthopedic exams, interpreted by our fellowship

trained radiologists. Add to that the numerous imaging options that are available at seven convenient locations in your community.

What's black and white and read all over?

The latest in diagnostic imaging available at Hallmark Health. For locations or to schedule your exam, call (781) 979-3811 or visit [hallmarkhealth.org](http://hallmarkhealth.org).
