

THE FINEST ORTHOPEDIC CARE IN THESE PARTS.

*New arthroscopic techniques
in shoulder repair >*

*< New advances
in treating pain*

Shoulders, Ankles, Knees, Hips. They're some of the 206 bones found in your body. The moving parts that, well, keep you moving. But when they need repair, you need the orthopedic expertise of Hallmark Health's Bone and Joint Program. Our program was developed to rival some of the best in the nation.

Here, our surgeons have an impressive body of work. They're experienced in minimally invasive arthroscopic techniques for faster recovery time. They work with sophisticated imaging technology, and perform partial and

total hip and joint replacements, as well as treating other musculoskeletal conditions. They work with specially certified orthopedic nurses.

< Total hip replacements

And to achieve the most successful outcomes possible, our Joint Camp and rehab services help you optimize your recovery.

Of course, all this expertise has led to patients ranking us among the top 1% in the country, and one of the top choices for

*< Half-knee replacements
with shorter recovery*

orthopedics care in these parts.
